

KIDS IMMUNE PLUS

Children are constantly exposed to new environments — classrooms, sports teams, playgrounds, travel, and seasonal changes.

IMMUNE PLUS IS DESIGNED TO:

- Support healthy immune system function
- Promote immune resilience year-round
- Support the body's natural response to seasonal stressors
- Encourage balanced immune activity

The goal is not to “kill everything” — but to support a strong, responsive, well-regulated immune system.

WHAT'S INSIDE & WHY IT MATTERS

Fresh echinacea angustifolia root:

- Support healthy immune response
- Promote immune system activation when needed
- Support natural inflammatory balance

The root form of Echinacea angustifolia has been traditionally valued for deeper immune support.

Fresh echinacea purpurea flower:

- Support immune cell activity
- Promote healthy immune signaling
- Support seasonal immune resilience

Using both root and flower provides a broader spectrum of immune-supportive compounds.

Elderberry Fruit:

- Support immune function
- Promote antioxidant protection
- Support the body during seasonal challenges

Elderberry is rich in naturally occurring antioxidants that support cellular health.

Astragalus Root:

- Support long-term immune resilience
- Promote immune system balance
- Support overall vitality

Astragalus is considered an adaptogenic herb that supports the immune system over time rather than stimulating it aggressively.

SUPPLEMENT FACTS

Serving Size: 30 drops (1mL)
Servings Per Container: About 30

Amount Per Serving	%DV
--------------------	-----

Vitamin C (as Ascorbic acid)	20mg 22%
--	----------

Proprietary Blend 250mg*	
Fresh Echinacea angustifolia root +, Elderberry fruit +, Astragalus root +, Fresh Echinacea purpurea flower +	

Herb Strength Ratio 1:4

* Daily Value (DV) Not Established.

Other Ingredients: Vegetable Glycerin, Deionized Water, mixed berry natural flavor.
+ organic
